WASH & WEAR

INSULATING

STRETCH

WIND RESISTANT

KZN SAFETY AND GEAR

PRODUCT ICONS

REACTIVE DYED

A superior quality dyeing process ensures brighter colours and prevents fibers from weakening during the printing process

WASH & WEAR

Garments require little or no ironing and are often crease resistant

MOISTURE WICKING

The garment contains breathable moisture management fabric which wicks perspiration from the skin to the outer surface and dries quickly through evaporation

HIGH VISIBILITY

The garment contains fluorescent colours and/or reflective tape to increase visibility

COMBED COTTON

A process where the shorter cotton fibres are discarded and impurities removed, making the yarn stronger, smoother, softer and more compact

STRETCH

Fabric offers multi-dimensional stretch allowing flexibility and a more tailored fit

WATER RESISTANT

Fabric has water resistant properties

WIND RESISTANT

Fabric has wind resistant properties

FADE RESISTANT

Product offers superior resistance to fading

CONCEALED HOOD

Concealed hood that is sewn and hidden in the garment's collar and can be accessed via a zip.

INSULATING

Garment contains a fabric or yarn that provides insulating properties.

ANTI-PILL

Garment is made from a material that does not form pills or that resists pilling.

FIT GUIDE

Need some help finding your size?

On each catalogue page you will notice a QR Code. Scan the code to visit our product page online. Under "Specifications" you're able to see half chest and waist measurements.

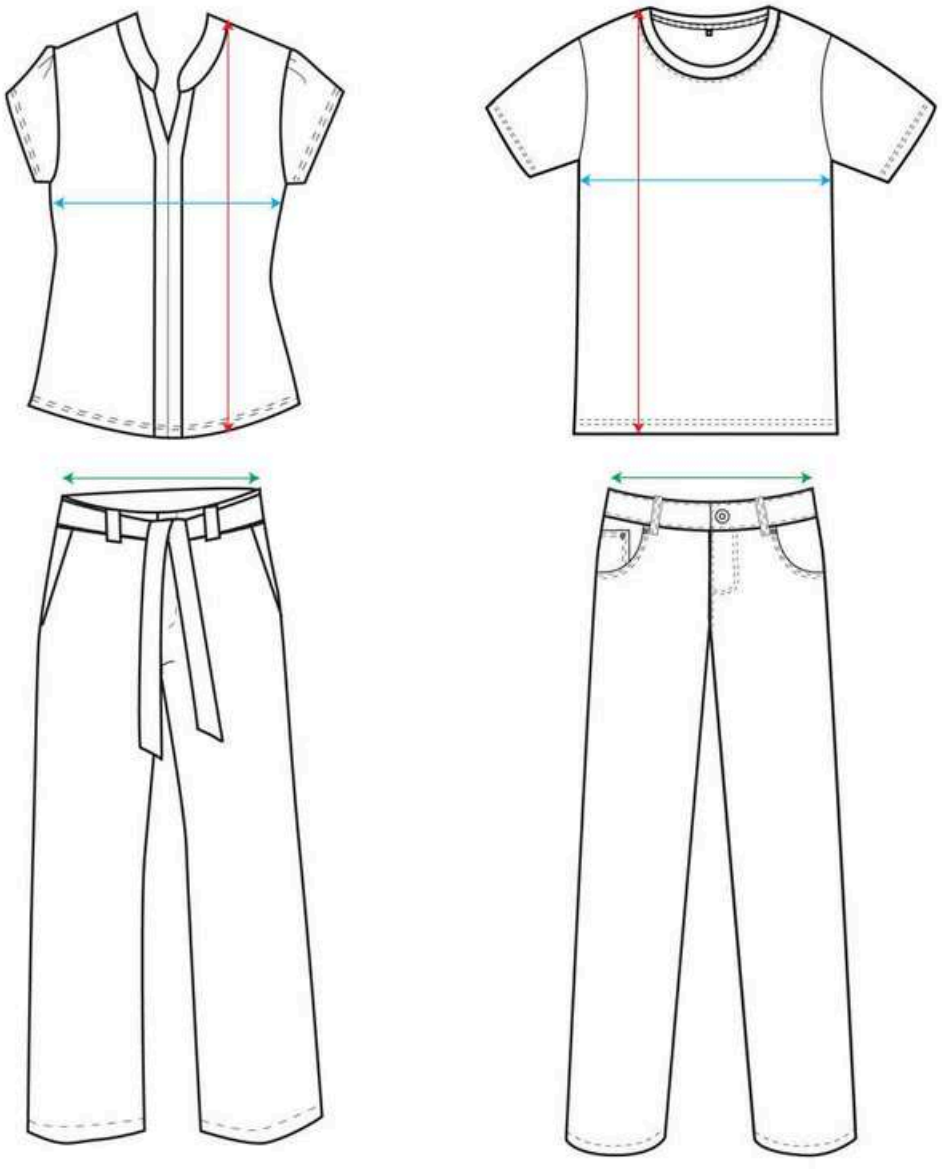

PLEASE NOTE:
1. We recommend that you purchase samples to ensure the fit is correct.
2. Sizing measurements are approximate and should only be used as a guideline as sizes vary from style to style.
3. Specifications in our charts are subject to a 2cm tolerance.

Measurements provided in our Specs are the **size of the garment** and not body measurements.

HALF CHEST MEASUREMENT - This measurement in blue indicates the width of the garment across the chest and is measured from 2cm below the armhole.

LENGTH MEASUREMENT - The length of the garment is measured from the longest point of the garment to its hemline as indicated in red below.

HALF WAIST MEASUREMENT - As indicated in green, this measurement is the width of the garment across the waistband and is measured from seam to seam.

GARMENT CARE

To ensure the longevity and performance of your garments, please follow the specific wash care instructions provided. These instructions are printed on the sew-in label. By adhering to these instructions and purchasing sufficient quantities to avoid excessive wear, you can expect durability, comfort, and lasting satisfaction from your garments.
Please note that we cannot accept responsibility for damage caused by mishandling or failure to follow the provided care instructions.

GARMENT CARE SYMBOLS:

FABRICS & STYLES

We are committed to maintaining the highest standards of quality and colour consistency in our fabrics. However, variations in colour and texture may occur due to differences in dye lots. These variations are within international tolerance levels and align with industry standards.

While we strive to maintain consistency in our styles throughout the catalogue period, we reserve the right to withdraw fabrics or styles nearing the end of their cycle.

DISCLAIMERS & INFORMATION

Please note that actual product colours may vary slightly from what is shown in this printed material. For precise colour verification, we recommend requesting a sample. Product dimensions are listed in centimetres and may have minor variations. Product images may not perfectly replicate the actual products due to limitations in photography and printing. While we strive for accuracy, errors may occasionally occur in this catalogue. If you have any questions or concerns, please consult your sales consultant or request a sample before placing your order. By submitting an order, you confirm that you have reviewed the product information and understand that we cannot be held liable for any errors or resulting expenses..
